🌟 Parent/Teacher Guide – Genesis 1 Coloring Pages

Purpose

These coloring sheets help children under 12 learn the story of Creation in a way they can see, enjoy, and remember. The activity reinforces the truth that God (Jesus) is the one Creator of all things.

📖 How to Use Each Page

1. Let There Be Light – Genesis 1:3

- Scripture Focus: “And God said, Let there be light: and there was light.”
- Talking Point: God created light just by speaking. His Word is powerful! That same Word became flesh in Jesus.
- Activity Idea: While coloring, ask: “What do you like more—day or night? Why?” Remind them that God made both.

- Memory Verse Practice: Have the children say Genesis 1:1 and 1:3 aloud while pointing to the sun and moon on the page.

———

2. God Made the Animals – Genesis 1:21

- Scripture Focus: “And God created great whales, and every living creature… and every winged fowl.”
- Talking Point: God made animals of the sky, land, and sea. He thought of every little detail!
- Activity Idea: As children color, ask: “What’s your favorite animal? Did God make it?”
- Interactive Play: Have kids make the sounds of each animal as they color.

———

3. Created in His Image – Genesis 1:27

- Scripture Focus: “So God created man in his own image… male and female created he them.”

- Talking Point: People are special because only we are made in God's image. That means we can love, think, and choose to serve Jesus.
- Activity Idea: Ask the kids to color the boy and girl. Remind them: "You are made in God's image too!"
- Reflection: Encourage children to thank Jesus for making them special.

🕊️ Mini Devotion (Optional)

- Read Genesis 1:1–5 together.
- Say: "God made everything. He made the world by speaking, and He made YOU because He loves you."
- Pray: "Thank You, Jesus, for making the light, the animals, and for making me in Your image. Help me to live for You."

✍️ Tips for Parents/Teachers

- Keep lessons short (5–10 minutes) for younger kids.
- Use simple language. Emphasize: "Jesus is the Creator."
- Let kids show and tell their colored pages at the end—this helps them "teach back" what they've learned.
