A DREAM FULFILLED

When Missions Arise Foundation launched three years ago, one of our earliest dreams was to build an oil mill in Bekora. We shared this vision on our social media and website, inviting partners and friends to join us on this journey. We then waited—prayerfully, patiently, and with hope—until 2026, when this long-anticipated project finally began to take shape.

For years, the parish community in Bekora longed for the day when an oil mill would ease their burdens. They envisioned a place where wasted palm nuts would be transformed into clean, high-quality palm oil; where improved hygiene would strengthen food security; and where farmers could work in safer, more dignified conditions. Today, that dream has come true. The mill is complete, and oil is flowing.

The joy is palpable. Women can now process and sell their produce with confidence. Families see a more stable, hopeful future. The parish community feels renewed, strengthened, and ready to thrive. What once seemed distant is now a living reality—an engine of opportunity for generations.

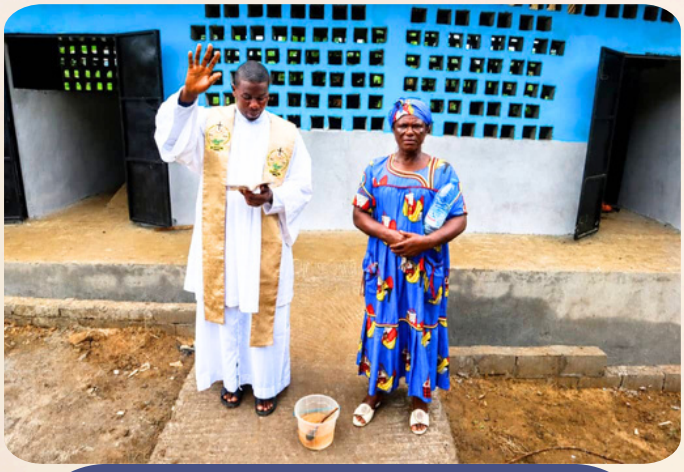

At Missions Arise Foundation, improving livelihoods is central to our mission, and this project shows what becomes possible when compassion meets action. We are deeply grateful to all people of goodwill whose generosity made this milestone possible—especially those with hearts for humanity and for the most vulnerable in Cameroon's Southwest Region.

We invite you to continue uplifting disadvantaged communities by partnering with us at missionsarise.org. Together, we can build futures where dignity, opportunity, and faith flourish.

THE OIL MILL

BOREHOLE PROJECT

The Ngolobolo schoolchildren and community have long longed for a clean water supply. MAF answered the call and provided a borehole costing about $16000. This has changed the community's life.

ST. LINUS NURSERY AND PRIMARY SCHOOL

The Anglophone crisis devastated several locations within the Kumba diocese. This school was left in shambles. MAF is currently carrying out renovations costing over $4000.

These renovations will provide a safe space for the children. Education is central to our mission.

LIGHT TO ST. FRANCIS EVENING SCHOOL

The high level of illiteracy indirectly contributed to property destruction during the civil unrest. The diocese is using this opportunity to provide education to adults who didn't have the chance to receive formal schooling, and it is providing a $3,500 solar panel to support night studies.

Celebrating our Third Anniversary

Founded in September 2023, MAF has entered its third year. A journey of a thousand miles begins with a single step, and we have already taken giant strides, completing significant projects we could not have imagined at launch. In addition to our donors' generosity, we have been blessed by the selfless dedication and contributions of two team members, Marc and Albert. They inspire me. Thank you.

Fr. Wilfred Emeh
(Coordinator)

Our Mission

Mission Arise Foundation engages remote villages in the Southwest Region of Cameroon to harness human and natural resources to improve the people's livelihoods through community-led and owned initiatives in education, agriculture, healthcare, and the life and ministry of priests.

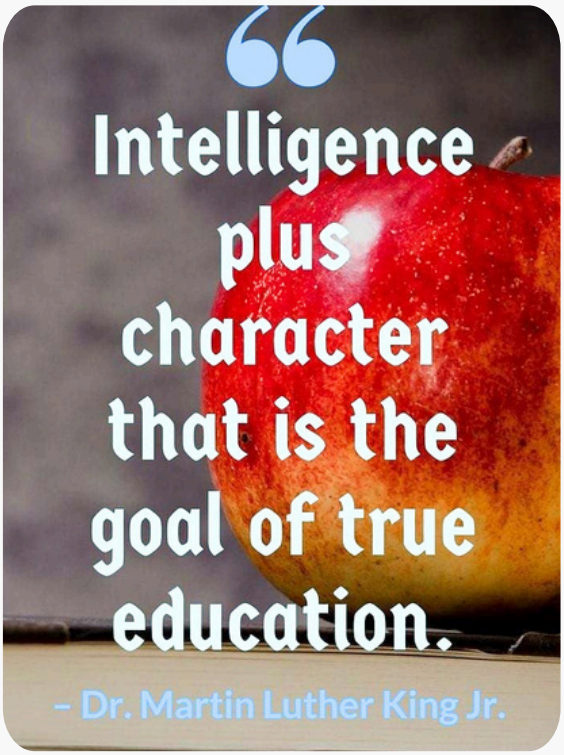

LOOKING FORWARD IN HOPE

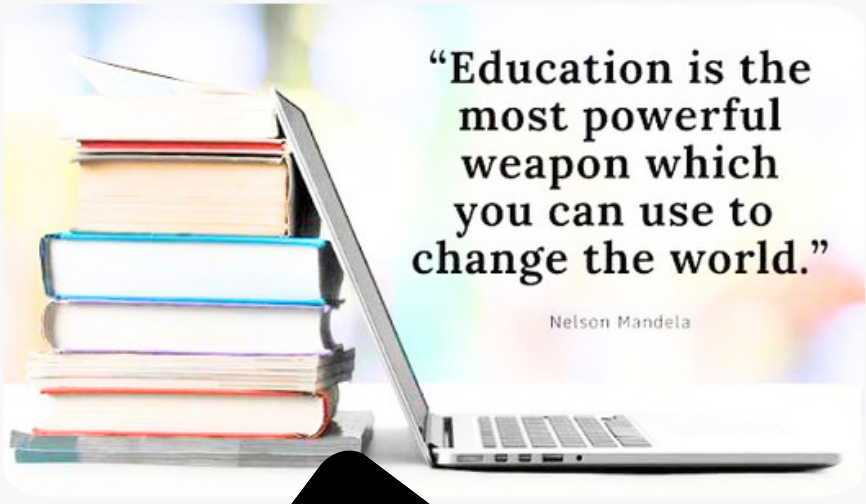

Borehole Project

He who brings water brings life. Indeed, portable water is essential for survival, yet the struggle is real as many forgotten villages fight daily to access water. Sometimes children must trek to streams and rely on locally built pipes to fetch water. As a result, outbreaks of waterborne diseases like typhoid and cholera are widespread. MAF has already designated the Ngolobolo community to receive a borehole to improve access to clean water. We also plan to supply portable water to other nearby villages. Please support this transformative project and bring life and hope to our neglected communities

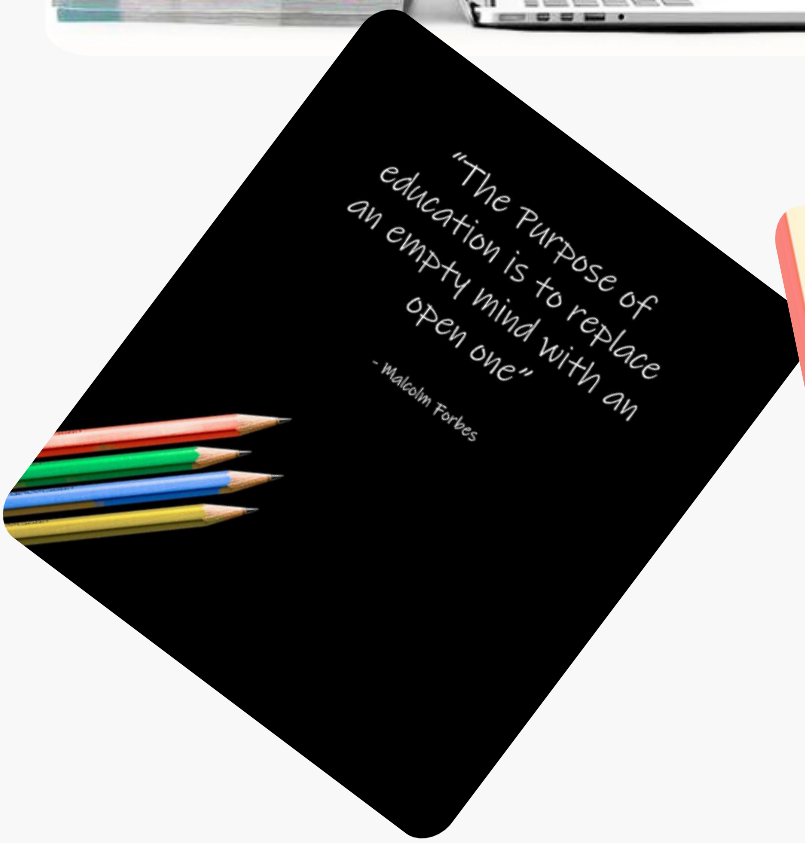

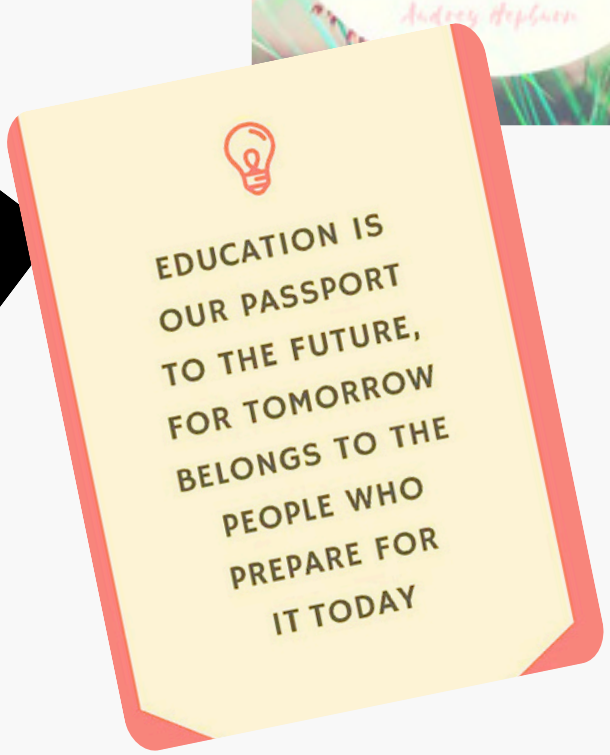

MISSIONS ARISE
"The health of our children is the foundation for the health of our society."
UNKNOWN

Intelligence plus character that is the goal of true education.
– Dr. Martin Luther King Jr.

"Education is the most powerful weapon which you can use to change the world."
Nelson Mandela

A quality education has the power to transform societies in a single generation. provide children with the protection they need from the hazards of poverty, labour exploitation and disease, and give them the knowledge, skills and confidence to reach their full potential.

"The Purpose of education is to replace an empty mind with an open one"
- Malcolm Forbes

EDUCATION IS OUR PASSPORT TO THE FUTURE, FOR TOMORROW BELONGS TO THE PEOPLE WHO PREPARE FOR IT TODAY
