CAPABILITY STATEMENT

Taccarra Renee LLC

Leadership development and management training for government healthcare organizations, military treatment facilities, public health departments, and hospitals. Woman owned and veteran owned small business.

Core Competencies

- Leadership development for nurse managers, directors, and clinical supervisors
- Management training for new and newly promoted nurse leaders
- Performance conversation and accountability training
- Retention focused leadership consulting
- Human centered AI adoption for leadership teams

Differentiators

- 20 years inside military healthcare, from medic to Chief of Public Health Nursing
- Registered nurse and retired Army officer: understands both clinical and command environments
- Brain based approach: addresses why trained leaders still avoid hard conversations under stress
- Leadership development paired with human centered AI adoption, from a certified AI consultant with 20 years in government healthcare
- Fixed scope, fixed price engagements with a 30 day follow up review so training transfers to the unit

Founder Experience

Relevant experience of the founder prior to forming Taccarra Renee LLC. Not company past performance.

- **Chief of Public Health Nursing, Fort Eustis, VA.** Led a section that had gone three years without a chief. Within nine months of a 90 day assessment, the section met all required metrics, confirmed by a staff assisted visit and audit. Area met every standard in Joint Commission and Defense Health Agency inspections. Served as Acting Director of a 35 person department.
- **Officer in Charge, Physician Recruiting Team, Houston Medical Recruiting Station.** Took a low performing section and turned it into one of the highest performing teams in the Battalion.
- **Army Investigating Officer.** Interviewed department leaders and staff on high tension, high turnover units to identify the root of conflict.
