Kenneth Thomas

/ FRACTIONAL CTO
TALLAHASSEE, FLORIDA

/ SENIOR TECHNOLOGY LEADERSHIP, PART TIME

Your IT company does the work. I make sure it gets done right.

You get a senior technology executive on your side of the table. I set your IT and AI strategy, check what you spend, and hold your vendors to their contracts. I work with organizations of 50 to 250 staff that pay an outside IT company but have nobody in charge of technology.

Kenneth Thomas
Former Director of IT, a regional sports network
MBA, MS in IT, PhD in progress

/ THREE QUESTIONS FOR YOUR LEADERSHIP TEAM

- Can you say what your IT company delivers for the money?
- Who answers your board when it asks about cybersecurity?
- Which AI tools do your staff use, and with what data?

How we work together

YOUR IT COMPANY KEEPS THE HANDS-ON WORK

STEP 1 · ENGAGEMENTS USUALLY START HERE

Technology Ownership Review

Three weeks · fixed fee

You see where your IT money goes and what puts you at risk. Then you get a clear order for what to fix first.

- Your top five risks in plain English
- A calendar of every contract renewal
- A 12-month roadmap with costs
- A briefing with your leadership team

/ STEP 2 · CHOOSE THE LEADERSHIP YOU NEED

Fractional CTO Retainer

Monthly · six-month minimum

I join your leadership team part time. Your IT company and your in-house IT team answer to me. Your board gets a quarterly report.

Executive Technology Advisory

Membership · monthly or six-month plan

Bring your technology questions to two live group office hours a month, or post them in the community and get a written answer within two business days.

ALSO AVAILABLE · FOCUSED PROJECTS

AI Use Policy Sprint Two weeks
Your staff get clear rules for using AI tools.

IT Company Selection Four weeks
I score bids and vet the contract before you sign.

"Kenneth led and oversaw several projects ... that led to huge cost savings and immense organizational efficiencies. Kenneth is well organized. A team would be lucky to walk into an environment that he set up."

DIRECTOR OF CYBERSECURITY AND AI RISK STRATEGY, FORMER COLLEAGUE
