About Barbara

Barbara Hamilton is the founder of AI Doable and a Certified AI Consultant and Agent Builder, based in Darwin, Australia.

She helps everyday people and small business owners use AI in practical, easy-to-understand ways.

Her work combines friendly training, hands-on setup and done-for-you AI assistant and agent builds, with a people-first focus on confidence, useful workflows and responsible use.

Barbara is also listed in the International Association of Artificial Intelligence Consultants (IAAIC) directory.

Who I help

- Everyday people who know AI could help but don't know where to start.
- Small business owners looking for practical ways to save time, simplify work and use AI well.

Topics I speak and teach about

- ChatGPT made easy for beginners
- Personal AI assistants for everyday life and work
- Practical AI for everyday life, learning and work
- Where small businesses should start with AI
- AI agents, automation and workflows with a people-first approach

Available for

Guest Workshops | Panels & Articles | Collaborations | Podcasts & Interviews
