COMPANY OVERVIEW

Noor Construction, Inc. is a California general contractor and turnkey design-build remodeler serving the Sacramento Valley. The company brings more than 30 years of team experience in construction, remodeling, additions, ADU development, repair/restoration, and project management. Noor works with architects and designers and manages projects from planning and design through construction and completion, including work on occupied, operational sites.

CORE COMPETENCIES

- General construction, major renovations and additions
- Design-build coordination, architectural drawings and engineering support
- Kitchen, bathroom and common-area renovations
- Floor plan/layout changes, windows and doors
- Roofing, siding, stucco and exterior improvements
- Foundation, framing, concrete and structural improvement work
- Electrical, solar-system and HVAC / mini-split installation support
- Flooring, cabinets and finish improvements
- ADU and small-footprint building design and construction
- Residential repair/restoration, including occupied operational sites

FEDERAL POSITIONING

- Facility renovation and modernization
- Repair and alteration of existing buildings
- Tenant and interior improvements
- Building-envelope and exterior repair
- Small construction and task-order support
- Multi-trade renovation coordination
- Occupied-site construction and restoration
- Disaster recovery reconstruction and repair support
- Prime-contractor subcontracting support across Northern California

DIFFERENTIATORS

- 30+ years of team construction experience
- Turnkey design-build and project-management approach
- Broad multi-trade renovation capability under one project-management structure
- Experience coordinating architects, designers, engineering and permitting
- Ability to manage new construction as well as repair/restoration scopes
- Experience working on occupied, operational sites
- Local Sacramento Valley presence and knowledge of Northern California construction conditions
- Single-point coordination from consultation through project completion

RELEVANT FEDERAL MARKET LANES

- Department of Veterans Affairs facility renovations and repairs
- DoD installation sustainment, restoration and modernization support
- USACE small construction, repair and emergency support
- GSA federal-building alterations and tenant improvements
- Federal prime contractor subcontracting
- Wildfire / disaster recovery repair and reconstruction
- Future California state and local public-sector construction opportunities
