FR POOL TABLES

Pool Table Referrals

For moving teams. It takes about two minutes at the walkthrough.

When you see a pool table, just say: "We don't take apart or set up pool tables, but we work with FR Pool Tables. The most important thing they need is the size, so let's measure it right now and write down your move dates. Then give them a call as soon as you can to book the teardown, a few days to a week before your move."

Your part

1

Say the line

The one above. That's the whole pitch.

2

Help fill in the half sheet

The table size (it shows how to measure), their move dates, and a few quick yes/no boxes.

3

Leave the half sheet

The customer scans the code or calls us. Nothing to schedule or track on your end.

We handle the rest

- **Moving across town:** our billiard tech takes the table apart before your crew arrives. Your crew moves the pieces. We set it up at the new house, level it and get it ready to play.
- **Moving out of town:** we take it apart and crate the slate so it travels safely. Wherever they're headed, we line up a billiard tech to set it up at the new home.
- We schedule directly with the customer and keep them posted. We ask them to call as soon as possible and book the teardown a few days to a week before the move, so the table is down or crated before your crew arrives.

Why it helps you

Your customer gets a real answer instead of "find someone," and your crew never handles a table that has to be set up right.

Questions from your team

Call Anh-Tuan at (970) 425-7325 or email atran@frontrangepooltables.com.

Thank you for sending your customers our way. We'll take good care of them.
