What's a service area page?

A **service area page** (or **city page**) is a page on your site about one city you serve. Like "Towing Company in Missouri City."

Done right, it helps you rank in that city. Done wrong (copy-paste), it can hurt your whole site.

Words to know

Word	What it means
Map Pack	The 3 businesses on the map at the top of a Google search.
Blue links	The regular search results under the map.
Service area business	A business that goes to the customer, not the other way around.
City page	A page on your website about one city you serve.
Doorway page	A thin, copy-paste page made only to rank. Google doesn't like these.
Internal link	A link from one page on your site to another page on your site.
Anchor text	The clickable words in a link.
Search intent	The reason behind a search: need help now, comparing, or just learning.
Orphan page	A page that no other page links to. Hard for Google to find.

The 3 rules

1. **Only make pages for places you really serve.**
2. **Every page must be truly different.** Change at least half the content with real local info, not just the city name.
3. **Every page must help the reader.** If a person from Missouri City reads it, they should learn something useful.

Which cities get pages first?

Score each city and start with the highest:

City	How close? (1 to 5)	How many jobs there? (1 to 5)	Population/searches (1 to 5)	Total
Missouri City				
Stafford				
Richmond				
Rosenberg				
SW Houston
