How to Build High-Converting Service Pages

Service page ideas, a fill-in template, and a checklist for montessori schools

Why service pages matter

A **service page** is a page on your website about ONE thing you do. Like "Primary / Children's House (3 to 6)."

Google and AI tools match searches to pages. If someone searches "montessori toddler program apex", Google wants to show a page that's all about that. If you only have one page that lists everything, you're much harder to find.

One service = one page. That's the rule.

Words to know

Word	What it means
SEO	Search Engine Optimization: doing things so Google shows you more.
Map Pack	The 3 businesses on the map at the top of a local Google search.
Service page	A page about ONE thing you do.
Backlink	A link from another website to yours. Like a vote of trust.
AI search	Tools like ChatGPT, Gemini, Perplexity, and Google's AI answers.
Schema	Hidden code that labels your info for computers.
Title tag	The blue headline Google shows for your page.
Meta description	The short gray text under the title in Google.
H1	The biggest headline on the page.
Above the fold	The part of the page you see before you scroll.

Service pages every Montessori school should have

Here are the pages we recommend for Montessori Schools. Start with the ones that bring the most money or the most calls.

Page	What to cover
Toddler Program (18 months to 3)	Daily rhythm, potty learning, language, ratio, half/full day.
Primary / Children's House (3 to 6)	Mixed ages, work cycle, what kids learn, sample day.
Kindergarten Year	Why stay for the 3rd year, reading and math, leadership.
Lower Elementary (6 to 9)	Great lessons, research, going out, how it compares to public school.
Upper Elementary (9 to 12)	Independence, projects, transition to middle school.
Before & After Care	Hours, what kids do, cost.
Summer Camp	Weeks, themes, ages, cost.
Admissions / How to Apply	Steps, timeline, tours, deadlines, waitlist.
Tuition & Financial Aid	Ranges, what's included, payment plans, aid.
What Is Montessori?	Plain-language explainer for new parents.
Our Guides / Teachers	Training, credentials, years with the school.
Parent Education	Talks, Montessori at home, observations.

What makes a service page "high-converting"?

A good page does two jobs:

1. **Helps you get found** (Google and AI understand it)
2. **Turns visitors into families** (they call or book a school tour)

Must-haves for Montessori schools:

- Age range and schedule options

- A sample day (hour by hour)
- Photos of the real classroom (consent for any child faces)
- Teacher training and ratio
- Tuition range or 'starting at'
- Book a tour button
- Short parent quotes (with permission)

The service page template

Copy this layout for every service. We filled it in with **Primary / Children's House (3 to 6)** as the example.

1. Page title (shows in Google)

```
Primary / Children's House (3 to 6) in Cary, NC | Little Oaks Montessori
```

Keep it under about 60 characters.

2. Meta description (the gray text in Google)

```
Need primary / children's house (3 to 6) in Cary? Little Oaks Montessori helps families with [main benefit]. [Proof, like reviews or years]. [Call to action].
```

3. Big headline (H1)

Primary / Children's House (3 to 6) in Cary, NC

4. Top section (above the fold)

- One sentence saying what you do and who it's for
- Your #1 reason to choose you
- Button: Book a school tour
- Phone number (click-to-call on phones)
- Star rating + number of reviews

5. "Is this right for you?"

3 to 5 bullets about who this service is for. Use plain words.

6. How it works

Simple steps: 1, 2, 3, 4. People love knowing what happens next.

7. Cost and payment

Give a price, a "starting at" price, or explain what changes the price. Add insurance, financing, or payment options. Pages that talk about price usually beat pages that hide it.

8. Why choose us

3 to 6 short points. Real facts, not fluff. Example: years in business, training, guarantees, reviews.

9. Proof

Reviews that mention this service. Photos of real work. Short stories (follow privacy rules).

10. Meet the team

Photo and short bio of who does this work.

11. FAQ section

Answer real questions in short, direct answers. This helps a LOT with AI search. For Primary / Children's House (3 to 6):

[Answer in 2 to 4 short sentences. Give a real, direct answer first.]

Is Montessori good for kids who need structure?

Writing tips (keep it simple)

- Write like you talk. Short sentences.
- Use the words your families use, not industry words.
- Put the most important info at the top.
- Use headings so people can skim.
- Aim for 800 to 1,500 words. Long enough to answer everything, but no fluff.
- Make it different from your other pages. Don't copy and paste and swap one word.

Link your pages together

- Link from your homepage to your top service pages
- Link each service page to 2 or 3 related service pages
- Link blog posts to the matching service page
- Link service pages to your city pages (and back)

Before you hit publish
