GUIDE + CHECKLIST

How to Set Up & Optimize Your Google Business Profile

A step-by-step guide + checklist for dentists

Free resource from JP Marketing · jpmarketing.co · Updated November 2026

Why your Google profile matters so much

When someone near Katy, TX searches for dentists, Google shows a map with 3 businesses on top. That's called the **Map Pack**. Most calls go to those 3.

Your **Google Business Profile** (people still call it "GMB") is what shows up there. It's free. And it's often the very first thing a new patient sees.

This guide shows you how to set it up the right way, step by step, for dental offices. No tech skills needed.

What you'll get:

- A profile that shows up for more searches
- More calls, website clicks, and more booked patients
- Fewer mistakes that can get your profile suspended
- A simple weekly routine to keep it strong

> **Heads up:** Google changes this stuff a lot. In late 2025 Google started removing the old **Questions & Answers** section from profiles and replacing it with an AI "Ask" feature in Maps. The AI reads your profile, your reviews, and your website to answer questions. So keeping everything complete and correct matters more than ever.

Words to know

Word	What it means
Google Business Profile	Your free listing on Google Maps and search. Also called GMB.
Map Pack	The top 3 businesses on the map.
Category	The label that says what kind of business you are.
Attribute	Little tags like 'wheelchair accessible.'
Service area business	A business that goes to its customers.

Word	What it means
Verification	Proving to Google your business is real.
UTM tag	Extra words at the end of a link that help you track where visits came from.

Before you start: gather this stuff

- [ ] Your exact business name (the one on your sign, your license, and your paperwork)
- [ ] Your real address (and whether customers come to you)
- [ ] Your main phone number (a local number is best)
- [ ] Your website link
- [ ] Your hours (and holiday hours)
- [ ] A list of every service you offer
- [ ] 10 to 20 good photos (more on this below)
- [ ] Your logo and a cover photo
- [ ] A Google account that the business owns (not a staff member's personal email)

> **Tip:** Use a Google account the business owns, like admin@yourbusiness.com. If an employee sets it up with their own Gmail and then leaves, you can lose control of your profile.

Step 1: Find or create your profile

1. Go to **google.com/business** and sign in.
2. Search for your business name. It might already exist (Google sometimes makes profiles on its own).
3. If it exists, click **Claim** or **Request access**.
4. If it doesn't exist, click **Add your business**.

If someone else (like an old marketing company) owns it, use the request access button. Google will email them. If they don't answer in about 7 days, you can often claim it yourself.

Step 2: Use your real business name

Use your name **exactly** as it looks on your sign and paperwork. Example: **Bright Smile Family Dental**.

Do **not** add extra words like your city or services. Like this:

Bad (can get you suspended)	Good
Bright Smile Family Dental - Best Dentist Katy	Bright Smile Family Dental
Bright Smile Family Dental / Dental Implants / Invisalign / Clear Aligners	Bright Smile Family Dental

Yes, adding keywords can help for a little while. But competitors report it, and Google can suspend you. It's not worth it.

Step 3: Pick the right categories (this is HUGE)

Your **primary category** is one of the biggest things Google uses to decide when to show you.

Best primary category for most dental offices: Dentist (or Cosmetic Dentist / Pediatric Dentist / Emergency Dental Service if that is truly your main thing).

Good secondary categories to think about (only pick ones that are true for you):

- Cosmetic Dentist
- Dental Implants Periodontist (only if you have one on staff)
- Emergency Dental Service
- Pediatric Dentist
- Teeth Whitening Service
- Dental Clinic

How to double-check: Search Google Maps for "dentist katy tx". Look at the top 3. Click each one and see what category shows under their name. If they all use the same one, that's a strong clue.

> **Tip:** You can have 1 primary and up to 9 secondary categories. Don't add categories just to add them. Every one should match something you really do.

Step 4: Address or service area

There are two kinds of businesses on Google:

Type	What it means	What you do
Storefront	Patients come to your place	Show your address
Service area business	You go to them	Hide your address and list the cities you serve
Both	You have an office AND go out	Show your address AND add service areas

Big rules:

- You need a real address to verify. No P.O. boxes. No UPS Store boxes. No virtual offices.
- Only make a profile for a place where you really work, with real staff during your hours.
- If you have more than one real location, each one gets its own profile.

Step 5: Hours

Put your real hours. Then:

- Add **special hours** for every holiday (Google will remind you)
- Use 'More hours' for things like phone hours, kids' hours, or online hours if they're different
- Never say 24 hours unless a real person answers 24 hours

Wrong hours = angry patients = bad reviews.

Step 6: Phone number and website

Phone: Use a local number that a real person answers. If you use call tracking, put the tracking number as the **primary** number and your real number as an **additional** number. That keeps things matching.

Website: Link to your homepage (or the location page if you have more than one location). Add a tracking tag to the end of the link so you can see these visits in Google Analytics:

```
https://yourwebsite.com/?utm_source=google&utm_medium=organic&utm_campaign=gbp
```

Booking link: If you have one, add it in the **Appointments** field. Your main goal is to get people to book an appointment, so make it one click.

Step 7: Add every service

Go to **Edit services**. Add each service with a short description (2 to 3 sentences). Here are good ones for dental offices:

- Dental cleaning
- Dental exam and X-rays
- Teeth whitening
- Dental implants
- Invisalign / clear aligners
- Crowns
- Root canal
- Tooth extraction
- Emergency dental care
- Dentures
- Veneers
- Kids dentistry
- Sedation dentistry
- Night guards

Write each description like you're talking to a neighbor. Use the words people search for. Example:

> **Dental Implants** - We help patients in Katy with dental implants. [Add one sentence on what makes yours different, like speed, experience, or price.] Book an appointment today.

Step 8: Write your business description

You get 750 characters. Use them. Say who you help, what you do, where you do it, and what to do next. No links, no ALL CAPS, no sales spam.

Example:

> Bright Smile Family Dental is a friendly family dentist in Katy, TX. We help kids, adults, and seniors with cleanings, fillings, crowns, Invisalign, dental implants, and same-day emergency visits. Nervous? We offer sedation options and a calm, no-judgment office. We take most PPO plans and welcome new patients. Book online or call us today.

Step 9: Turn on attributes

Attributes are little tags like "wheelchair accessible" or "online appointments." Turn on every one that's true. Good ones for dental offices:

- Online appointments
- Wheelchair accessible entrance and parking
- Accepts new patients
- Languages spoken (Spanish, Vietnamese, etc.)
- Women-led / veteran-led (if true)
- Appointment required

Step 10: Add great photos

Profiles with lots of real photos get more clicks. Start with **at least 10**, then add a few every week.

Photos to take:

- Front of the building from the street (so people can find you)
- The front desk with a smiling team member
- Each dentist (a nice headshot)
- Treatment rooms that look clean and calm
- Kids area or comfort items (blankets, TVs, headphones)
- Team photo
- Your technology: digital X-ray, scanner, etc.
- Parking lot and entrance

Photo tips:

- Use real photos. No stock pictures.
- Bright light, phone held sideways (landscape).
- Logo: square. Cover photo: wide.
- Short videos (under 30 seconds) work great too.
- Add new photos every week. It tells Google you're active.

Step 11: Get verified

Google needs to know you're real. It might ask for:

- **A video:** You film your sign, your office or your work gear, and proof you run the business (like opening the office door with your key). Keep it one take, no cuts.
- **A phone call or text code**
- **An email code**
- **A postcard** (less common now)

> **Tip:** For video verification, film the outside (street sign or building number), then walk in and show your workspace, tools, and something with your business name on it. Plan your video before you hit record.

Step 12: Build a review system

Reviews help you rank AND help people pick you. More reviews, newer reviews, and reviews that mention your services and city all help.

The simple system:

1. Get your review link. In your profile, click **Ask for reviews** and copy the link.
2. Ask at the happiest moment (right after a great visit or job).
3. Send the link by text. Texts get way more reviews than emails.
4. Follow up once, 2 days later, if they didn't leave one.
5. Reply to **every** review within 2 days.

Sample review request text:

> Hi [First Name]! Thanks for coming in today. If we took good care of you, would you leave us a quick Google review? It really helps other families find a dentist they can trust. Here's the link: [Review Link]. Thank you! - The Bright Smile Team

Rules: Never pay for reviews. Never offer gifts for reviews. Never write fake ones. Never ask only happy people while blocking unhappy ones (this is called "review gating" and Google doesn't allow it).

How to reply to a 5-star review:

> Thank you so much, [First Name]! We're so glad you had a great experience. See you next time! - [Your Name], Bright Smile Family Dental

How to reply to a bad review:

> Thank you for sharing this. We take every comment seriously. Because of privacy rules, we can't talk about any details here. Please call our office manager at [phone] so we can listen and help.

> **Privacy rule:** You must protect privacy when you reply. Never say or hint that the reviewer is your patient. Don't mention their visit, treatment, or case. Keep replies short and general.

Step 13: Post every week

Posts show up on your profile and keep it fresh. Post once a week (twice is even better). Ideas: offers, events, tips, team spotlights, and new photos. (See our **30 Google Business Profile Post Examples** guide for Dentists.)

Step 14: Answer questions (the new way)

The old Q&A section is going away. Now Google's AI answers questions using your profile, reviews, and website. So:

- Make a strong FAQ section on your website with real answers
- Keep your services, hours, and attributes complete
- Ask for reviews that mention the details people care about
- Use posts to share important info (like new hours or new services)

Step 15: Keep your profile safe

- Add a backup owner (you + a trusted partner)
- Give staff 'Manager' access, not 'Owner'
- Never share your Google password
- Check your profile weekly for 'suggested edits' from Google or strangers
- Don't change your name, address, or category a lot. Big changes can trigger a new verification.

Special tips for Dentists

Practice listing vs. dentist listings

Google lets each dentist have their own listing, plus one for the practice. That can help you show up more. But it can also split your reviews. Most small offices should push reviews to the main practice listing. If a dentist leaves, mark their listing as 'moved' or ask Google to merge it so you don't lose calls.

Insurance and new patients

Say in your description and services that you take new patients. List the big insurance plans you accept on your website, and link to that page from your profile. People ask Google 'dentist that takes Delta Dental near me' a lot.

Booking link

Add your online booking link in the 'Appointments' field. If you use a scheduler (like NexHealth, LocalMed, or your practice software), use that exact link and add UTM tags so you can track it.

Multiple locations

Every real office gets its own profile with its own phone number and its own page on your website. Never make a profile for a place where you don't actually see patients.

Emergency hours

If you take same-day emergencies, say so. Add 'Emergency dental care' as a service and keep your hours 100% right, including holidays.

Common mistakes to avoid

- Stuffing words into your name like 'Bright Smile Dental - Best Dentist Katy TX Implants' (this can get you suspended)
- Using a call-tracking number with no plan (put the tracking number as primary and your real number as 'additional')
- Never answering reviews

- Old holiday hours
- Photos that are just stock pictures of teeth
- Picking 'Dental Clinic' as primary when you are a regular family dentist

Your weekly 15-minute routine

Day	Task	Time
Monday	Add 2 to 3 new photos	3 min
Tuesday	Publish this week's post	5 min
Every day	Send review links to happy patients	2 min
Friday	Reply to all new reviews	3 min
Friday	Check for edits and wrong info	2 min

One-page setup checklist

Setup

- [ ] Profile claimed with a business-owned Google account
- [ ] Backup owner added
- [ ] Real business name (no extra keywords)
- [ ] Best primary category picked
- [ ] Secondary categories added (only true ones)
- [ ] Address or service area set the right way
- [ ] Hours + holiday hours correct
- [ ] Local phone number that a real person answers
- [ ] Website link with tracking tag
- [ ] Booking / appointment link added
- [ ] Every service added with a short description
- [ ] 750-character description written
- [ ] All true attributes turned on

- [ ] Logo and cover photo uploaded
- [ ] 10+ real photos uploaded
- [ ] Verified

Ongoing

- [ ] Post every week
- [ ] Add photos every week
- [ ] Ask every happy patient for a review
- [ ] Reply to every review
- [ ] Update holiday hours
- [ ] Check for wrong edits every week
- [ ] Keep website FAQs up to date

Common questions

How long until I see results?

Fixes like the right category and more services can help within a few weeks. Reviews and posts build over months.

My profile got suspended. What now?

Don't make a new one. Fix whatever broke the rules (name, address, category), then ask Google to reinstate it with proof like a business license and photos.

Can I have more than one profile?

Only one per real location with staff during business hours.

Want us to do this for you?

JP Marketing helps local businesses show up on Google, Google Maps, and AI search tools like ChatGPT. We build the websites, write the pages, run the ads, and set up the follow-up.
