Google Ads Exact-Match Search Campaign Starter Kit

Settings, keywords, ads, and assets for dentists

Free resource from JP Marketing · jpmarketing.co · Updated November 2026

What this kit is

This is a done-for-you starter setup for a **Google Ads Search campaign** for dental offices, using **exact match keywords only.**

Exact match means you pick the exact searches you want. You don't let Google wander off and spend your money on random stuff. It's the safest way to start.

> **Truth about "exact" match (2026):** Exact match isn't 100% exact anymore. Google also shows your ad for "close variants" with the same meaning (like misspellings, plurals, or reworded searches). That's why you still need **negative keywords** and a **weekly search terms check**. Also, Google's newer **AI Max** setting makes keywords act more like broad match. If you want true exact-match control, keep AI Max (and its search term matching) turned off. One more thing: exact match keywords **can't** show ads *inside* Google's AI Overviews. They can still show above and below them.

Words to know

Word	What it means
Exact match	Your ad shows for that search or very close versions of it. Written with [brackets].
Negative keyword	A word that STOPS your ad from showing, like 'jobs' or 'free.'
CPC	Cost per click: what you pay when someone clicks your ad.
CTR	Click-through rate: out of 100 people who see the ad, how many click.
Conversion	A good action, like a call or a booked appointment.
Ad group	A group of keywords and ads about one service.
Assets	Extras on your ad like extra links, phone number, and photos.
Search terms report	A list of the real searches that made your ad show.

Step 1: Campaign settings (do these exactly)

Setting	Pick this	Why
Campaign goal	Leads (or create without a goal)	Keeps setup simple
Campaign type	Search	Text ads on Google search only
Networks	UNCHECK Search Partners and Display	Keeps your money on Google search
AI Max	OFF	Keeps exact match acting like exact match
Broad match setting	OFF	Same reason
Locations	Your real service area (cities or a radius)	No wasted clicks
Location option	Presence: people IN or regularly in your area	Not 'interest in' your area
Language	English (add Spanish if you serve Spanish speakers and have Spanish ads)	
Bidding (start)	Maximize clicks with a max CPC limit, OR Manual CPC	Learn real costs first
Bidding (after ~30 conversions)	Maximize conversions or Target CPA	Let Google optimize with real data
Ad schedule	When someone can answer the phone	Calls you miss are wasted money
Auto-apply recommendations	Turn them OFF (Recommendations > Auto-apply)	Stops Google from adding broad keywords

Tip: Google Ads changes its menus often. If you can't find a setting, search the Google Ads Help Center for its name.

Step 2: Campaign structure

Keep it simple: **one campaign, a few tight ad groups.** Each ad group = one service.

Ad group	Number of keywords
Emergency Dentist	6
Dental Implants	6
Invisalign	5
General / New Patients	6
Kids Dentist	4

Step 3: Exact match keywords

Square brackets = exact match. Change the city names to yours.

Ad group: Emergency Dentist

```
[emergency dentist katy]
[emergency dentist katy tx]
[emergency dental care katy]
[same day dentist katy]
[dentist open today katy]
[toothache dentist katy]
```

Ad group: Dental Implants

```
[dental implants katy]
[dental implants katy tx]
[tooth implant katy]
[implant dentist katy]
[cost of dental implants katy]
[all on 4 katy]
```

Ad group: Invisalign

```
[invisalign katy]
[invisalign katy tx]
[invisalign dentist katy]
[clear aligners katy]
[invisalign cost katy]
```

Ad group: General / New Patients

```
[dentist katy tx]
[dentist in katy]
[family dentist katy]
[dentist accepting new patients katy]
[dentist cinco ranch]
[dentist fulshear tx]
```

Ad group: Kids Dentist

```
[pediatric dentist katy]
[kids dentist katy]
[children's dentist katy tx]
[family dentist for kids katy]
```

> **Tip:** Look up real search numbers and costs in Google Keyword Planner (free inside Google Ads). Remove keywords with zero searches. Add the versions people actually type.

Step 4: Negative keywords

Add these to a **shared negative keyword list** (Tools > Shared library > Negative keyword lists) and apply it to the campaign. Change any that don't fit your business.

```
jobs, job, hiring, salary, school, assistant, hygienist jobs, course, free clinic, medicaid only (add only if you don't take it), diy, kit, home remedy, how to become, reddit, lawsuit, malpractice, vet, dog, cat, cheap crowns mexico, tijuana, costa rica, abroad, training, certification, supplies, wholesale, used, lab
```

Step 5: Your responsive search ad

Make **1 to 2 responsive search ads per ad group**. Google mixes and matches your headlines and descriptions.

Headlines (use 10 to 15 per ad):

#	Headline (30 characters max)	Chars
1	Emergency Dentist in Katy	25
2	Same-Day Visits Available	25
3	New Patients Welcome	20
4	Most PPO Plans Accepted	23
5	Book Online in 60 Seconds	25
6	Gentle Care for Nervous Folks	29
7	Dental Implants in Katy	23
8	Free Implant Consult	20
9	Invisalign for Teens & Adults	29
10	Saturday Hours Available	24
11	Family Dentist Near You	23
12	4.9 Stars From 600+ Reviews	27
13	Payment Plans Available	23
14	Kids Love Our Office	20
15	Call Now - We Can Help Today	28

Descriptions (use 4 per ad):

#	Description (90 characters max)	Chars
1	Toothache or broken tooth? We save time every day for same-day emergency visits. Call now.	90
2	Friendly Katy dentist for the whole family. Most PPO plans accepted. Book online today.	87
3	Implants done start to finish in our office. Free consult and easy payment plans.	81
4	Nervous? We go slow, explain everything, and offer sedation. No judgment, ever.	79

Display path: yoursite.com / emergency / katy

> **Tip:** Pin your best headline (like the service + city one) to position 1 if you want it to always show. Don't pin too many, or Google can't test.

Step 6: Assets (they used to be called extensions)

Sitelinks:

Sitelink text	Description line
New Patient Special	Exam, X-rays and cleaning
Emergency Visits	Same-day appointments
Insurance We Take	See if you're covered
Dental Implants	Free consult available
Meet Our Dentists	Friendly, local team
Book Online	Pick a time that works

Callouts: Same-Day Appointments, Saturday Hours, Most PPOs Accepted, Payment Plans, Sedation Options, Spanish Spoken, Free Parking, Kid Friendly

Structured snippet: Services: Cleanings, Implants, Invisalign, Crowns, Whitening, Emergency Care

Call asset: Add your tracked phone number. Schedule it only for hours you answer.

Location asset: Link your Google Business Profile (if you have a storefront).

Image assets: Add 3 to 5 real photos (team, office, trucks, work).

Step 7: The landing page

Send each ad group to the **matching service page**, not your homepage. The page should have:

- [ ] Headline that matches the search (service + city)
- [ ] Phone number and button at the very top
- [ ] Reviews and trust facts right away
- [ ] Short form (name, phone, email, one question)
- [ ] Fast load on phones
- [ ] No menu clutter that distracts people (optional but helps)

Step 8: Conversion tracking (don't skip this!)

Track these as conversions:

- Calls from ads (60+ seconds)
- Calls from website (Google forwarding number)
- Online booking completed
- Contact form sent

Connecting to GoHighLevel (or any CRM): Save the "gclid" (Google click ID) with each lead in a hidden form field. When a lead turns into a real patient, upload it back to Google as an offline conversion. Then Google learns which clicks turn into money, not just which ones fill out forms.

Step 9: Budget

Start with $40 to $80 a day. Put most of it on Emergency and Implants. Those bring the most money per patient.

Daily budget	What it's good for
Small	Test 1 to 2 top services
Medium	3 to 4 services, full service area
Bigger	All services + Spanish ads + more cities

Give it **at least 30 days** before you judge. Ads need time and data.

Step 10: Your weekly routine

When	What to do
Week 1 (every 2 days)	Check search terms. Add bad ones as negatives.
Weekly	Search terms report: add negatives, add good new exact keywords
Weekly	Listen to a few recorded calls (quality check)
Every 2 weeks	Pause keywords that spend a lot with no leads
Monthly	Test one new headline or description
Monthly	Compare cost per lead and cost per patient

Rules for Dentists

> **Policy:** Healthcare ads can't use your patients' health info for remarketing lists. Keep claims honest: no 'best dentist' or 'painless' promises you can't back up.

- HIPAA: no patient names, photos, or health details anywhere without written consent.

- Never confirm someone is a patient when you reply to a review.
- Before/after photos need a signed release.
- Check your state dental board rules on ads (some states limit words like 'specialist').

Your first 30 days, day by day

Days	What to do	What to look at
1 to 3	Launch. Make a test call and test form to check tracking.	Are ads showing? Is tracking working?
4 to 7	Check search terms every 2 days. Add negatives.	Junk searches, cost per click
8 to 14	Pause keywords with lots of spend and no leads.	Cost per lead by ad group
15 to 21	Move budget to the best ad group. Test 1 new headline.	Which ad group brings real patients

Days	What to do	What to look at
22 to 30	Listen to calls. Compare leads to real jobs/patients.	Cost per patient, not just per lead

How to read the search terms report

1. In Google Ads, open your campaign, then Insights and reports > Search terms (menus can move).
2. Look at each search. Ask: would I want this person to call me?
3. If NO: check the box and click 'Add as negative keyword.'
4. If YES and it's not already a keyword: add it as a new [exact match] keyword.
5. Do this every 2 days in week 1, then once a week.
