Google Ads Exact-Match Search Campaign Starter Kit

Settings, keywords, ads, and assets for daycares & childcare centers

Free resource from JP Marketing · jpmarketing.co · Updated November 2026

What this kit is

This is a done-for-you starter setup for a **Google Ads Search campaign** for childcare centers, using **exact match keywords only.**

Exact match means you pick the exact searches you want. You don't let Google wander off and spend your money on random stuff. It's the safest way to start.

> **Truth about "exact" match (2026):** Exact match isn't 100% exact anymore. Google also shows your ad for "close variants" with the same meaning (like misspellings, plurals, or reworded searches). That's why you still need **negative keywords** and a **weekly search terms check**. Also, Google's newer **AI Max** setting makes keywords act more like broad match. If you want true exact-match control, keep AI Max (and its search term matching) turned off. One more thing: exact match keywords **can't** show ads *inside* Google's AI Overviews. They can still show above and below them.

Words to know

Word	What it means
Exact match	Your ad shows for that search or very close versions of it. Written with [brackets].
Negative keyword	A word that STOPS your ad from showing, like 'jobs' or 'free.'
CPC	Cost per click: what you pay when someone clicks your ad.
CTR	Click-through rate: out of 100 people who see the ad, how many click.
Conversion	A good action, like a call or a booked appointment.
Ad group	A group of keywords and ads about one service.
Assets	Extras on your ad like extra links, phone number, and photos.
Search terms report	A list of the real searches that made your ad show.

Step 1: Campaign settings (do these exactly)

Setting	Pick this	Why
Campaign goal	Leads (or create without a goal)	Keeps setup simple
Campaign type	Search	Text ads on Google search only
Networks	UNCHECK Search Partners and Display	Keeps your money on Google search
AI Max	OFF	Keeps exact match acting like exact match
Broad match setting	OFF	Same reason
Locations	Your real service area (cities or a radius)	No wasted clicks
Location option	Presence: people IN or regularly in your area	Not 'interest in' your area
Language	English (add Spanish if you serve Spanish speakers and have Spanish ads)	
Bidding (start)	Maximize clicks with a max CPC limit, OR Manual CPC	Learn real costs first
Bidding (after ~30 conversions)	Maximize conversions or Target CPA	Let Google optimize with real data
Ad schedule	When someone can answer the phone	Calls you miss are wasted money
Auto-apply recommendations	Turn them OFF (Recommendations > Auto-apply)	Stops Google from adding broad keywords

Tip: Google Ads changes its menus often. If you can't find a setting, search the Google Ads Help Center for its name.

Step 2: Campaign structure

Keep it simple: **one campaign, a few tight ad groups.** Each ad group = one service.

Ad group	Number of keywords
Daycare General	5
Infant Care	4
Preschool / Pre-K	4
Before & After Care	3

Step 3: Exact match keywords

Square brackets = exact match. Change the city names to yours.

Ad group: Daycare General

```
[daycare naperville]
[daycare in naperville il]
[childcare naperville]
[child care naperville il]
[daycare near naperville]
```

Ad group: Infant Care

```
[infant daycare naperville]
[infant care naperville]
[baby daycare naperville]
[infant childcare naperville il]
```

Ad group: Preschool / Pre-K

```
[preschool naperville]
[pre k naperville]
[preschool naperville il]
[preschool aurora il]
```

Ad group: Before & After Care

```
[before and after school care naperville]
[after school care naperville]
[before school care naperville]
```

> **Tip:** Look up real search numbers and costs in Google Keyword Planner (free inside Google Ads). Remove keywords with zero searches. Add the versions people actually type.

Step 4: Negative keywords

Add these to a **shared negative keyword list** (Tools > Shared library > Negative keyword lists) and apply it to the campaign. Change any that don't fit your business.

```
jobs, teacher jobs, hiring, salary, assistant, license requirements, how to
start, home daycare license, training, ccap application, free, dog daycare,
doggy, pet, adult day care, senior, elder, near me jobs, reddit, cribs for
sale, furniture, supplies, curriculum for sale
```

Step 5: Your responsive search ad

Make **1 to 2 responsive search ads per ad group**. Google mixes and matches your headlines and descriptions.

Headlines (use 10 to 15 per ad):

#	Headline (30 characters max)	Chars
1	Daycare in Naperville	21
2	Infant Spots Open Now	21
3	Book a Tour Today	17
4	Licensed & Caring Teachers	26
5	Open 6:30am to 6:30pm	21
6	Ages 6 Weeks to 12 Years	24
7	Daily Photo Updates	19
8	Secure Keypad Entry	19
9	Healthy Meals Included	22
10	Preschool & Pre-K	17
11	Before & After School	21
12	Loved by Naperville Parents	27
13	Low Teacher Ratios	18
14	Enroll for Fall	15
15	Tour This Week	14

Descriptions (use 4 per ad):

#	Description (90 characters max)	Chars
1	Licensed childcare in Naperville for ages 6 weeks to 12. Infant spots open. Book a tour.	88
2	Caring teachers, healthy meals, secure entry, and daily photo updates in our parent app.	88
3	Preschool and Pre-K that gets kids ready for kindergarten. Fall spots are filling fast.	87
4	Before and after school care with pickup from local schools. Enroll today.	74

Display path: yoursite.com / daycare / naperville

> **Tip:** Pin your best headline (like the service + city one) to position 1 if you want it to always show. Don't pin too many, or Google can't test.

Step 6: Assets (they used to be called extensions)

Sitelinks:

Sitelink text	Description line
Book a Tour	See our rooms in person
Infant Care	6 weeks and up
Preschool & Pre-K	Ready for K
Tuition	Rates and options
Health & Safety	How we protect kids
Before/After Care	School pickup

Callouts: Licensed Center, Infant Spots Open, Meals Included, Parent App Updates, Secure Entry, CPR-Trained Staff, Open Late, CCAP Accepted

Structured snippet: Programs: Infant, Toddler, Twos, Preschool, Pre-K, School Age

Call asset: Add your tracked phone number. Schedule it only for hours you answer.

Location asset: Link your Google Business Profile (if you have a storefront).

Image assets: Add 3 to 5 real photos (team, office, trucks, work).

Step 7: The landing page

Send each ad group to the **matching service page**, not your homepage. The page should have:

- ☐ Headline that matches the search (service + city)

- [ ] Phone number and button at the very top
- [ ] Reviews and trust facts right away
- [ ] Short form (name, phone, email, one question)
- [ ] Fast load on phones
- [ ] No menu clutter that distracts people (optional but helps)

Step 8: Conversion tracking (don't skip this!)

Track these as conversions:

- Tour booked
- Calls 60+ seconds
- Inquiry form
- Waitlist form

Connecting to GoHighLevel (or any CRM): Save the "gclid" (Google click ID) with each lead in a hidden form field. When a lead turns into a real parent, upload it back to Google as an offline conversion. Then Google learns which clicks turn into money, not just which ones fill out forms.

Step 9: Budget

Start with $20 to $40 a day. Turn it up when you have openings, turn it down when you're full. Infant terms usually convert best.

Daily budget	What it's good for
Small	Test 1 to 2 top services
Medium	3 to 4 services, full service area
Bigger	All services + Spanish ads + more cities

Give it **at least 30 days** before you judge. Ads need time and data.

Step 10: Your weekly routine

When	What to do
Week 1 (every 2 days)	Check search terms. Add bad ones as negatives.
Weekly	Search terms report: add negatives, add good new exact keywords
Weekly	Listen to a few recorded calls (quality check)
Every 2 weeks	Pause keywords that spend a lot with no leads
Monthly	Test one new headline or description
Monthly	Compare cost per lead and cost per parent

Rules for Daycares & Childcare Centers

> **Policy:** Ads talk to parents, not kids. Don't promise ratios or features you don't have. Keep hours in ads matching real hours.

- Signed photo releases.
- Show license info as your state requires.
- Don't share child info online.
- Follow state ratio rules in any claims you make.

Launch checklist

- [ ] Search only (no Display, no Search Partners)
- [ ] AI Max and broad match setting OFF
- [ ] Auto-apply recommendations OFF
- [ ] Location set to Presence
- [ ] Ad groups built with exact match keywords
- [ ] Shared negative list applied

- [ ] 2 ads per ad group with 10+ headlines
- [ ] Sitelinks, callouts, snippets, call asset added
- [ ] Each ad group sends people to the matching page
- [ ] Conversion tracking tested (do a test call and form)
- [ ] Ad schedule matches when you answer the phone
- [ ] Budget set

Your first 30 days, day by day

Days	What to do	What to look at
1 to 3	Launch. Make a test call and test form to check tracking.	Are ads showing? Is tracking working?
4 to 7	Check search terms every 2 days. Add negatives.	Junk searches, cost per click
8 to 14	Pause keywords with lots of spend and no leads.	Cost per lead by ad group
15 to 21	Move budget to the best ad group. Test 1 new headline.	Which ad group brings real parents
22 to 30	Listen to calls. Compare leads to real jobs/parents.	Cost per parent, not just per lead

How to read the search terms report

1. In Google Ads, open your campaign, then Insights and reports > Search terms (menus can move).
2. Look at each search. Ask: would I want this person to call me?
3. If NO: check the box and click 'Add as negative keyword.'
4. If YES and it's not already a keyword: add it as a new [exact match] keyword.
5. Do this every 2 days in week 1, then once a week.
