COMPANY SUMMARY

Green Palace Contracting and Maintenance L.L.C. was established in 2006 in Dubai, UAE, with a clear vision to contribute to the UAE's economic growth by providing high-quality construction and maintenance services across large-scale building projects, villas, and related developments.

Since its inception, the company has grown rapidly and continuously, driven by its strong reputation for delivering exceptional construction and maintenance solutions, supported by a team of dedicated and highly skilled technical experts.

Over the years, Green Palace has successfully executed a wide range of projects, including villas, residential buildings, warehouses, and various housing developments.

Every project undertaken by Green Palace is a testament to its pursuit of excellence, consistently exceeding client expectations in both quality and delivery time. This success is achieved under the visionary leadership of our founder and management team.

KEY INFORMATION

Founding Year: 2006
Founder/CEO: Ashraf Samir Anab
Employees: +400
Industry: Construction industry, specializing in residential and commercial projects

With a strong track record of successful collaborations with consultants, clients, and suppliers, Green Palace Contracting was created with the vision of contributing to the UAE's economic growth by providing high-quality construction and maintenance services for large-scale buildings, villas, and related developments.

Since its inception, the company has grown rapidly, built on a foundation of strong practices, dedicated management, and highly skilled technical expertise. Today, Green Palace employs more than 400 professionals and is equipped with modern machinery to meet diverse project requirements.

Over the years, it has completed numerous projects, including villas, residential and commercial buildings, warehouses, and housing developments. Many ongoing projects are ahead of schedule and within budget, thanks to meticulous planning, uncompromising quality standards, and disciplined leadership.

Under the vision and guidance of Engr. Ashraf Samir Anab, Chairman of the Board of Directors, Green Palace has established itself as one of the UAE's most reliable and well-managed construction companies, trusted by both public and private institutions. Looking forward, the company is committed to sustaining growth by investing in resources, adopting new technologies, and continuing to exceed client expectations.

MAJOR PROJECTS

The company has successfully executed numerous projects, including over 300 villas in Dubai with different designs in partnership with leading developers, as well as major landmark projects in Ras Al Khaimah, such as:

- 2B+G+8 R Waldorf Astoria – Skeleton & Finishing Works
- Royal Breeze G+2P+22 & 2B+G+11 Bab Al Bahr Hotel
- Various residential, commercial, and infrastructure projects

The company's extensive portfolio and close collaboration with some of the UAE's most prominent engineering consultancy firms have given Green Palace substantial expertise in project management and execution at the highest standards.

> *"Good business leaders create vision, articulate the vision, passionately own the vision, and relentlessly drive it to completion."*

Engr. Ashraf is the Founder and Director of Green Palace.
He formulates corporate strategy and steers it towards the achievement of its vision.
He holds a bachelor's degree in Civil Engineering from Cairo University (1995).

ESTABLISHED SINCE 2006

BUILDING A BETTER TOMORROW

Our Vision

Our vision

is to be recognized as a leading and innovative construction company in the UAE, setting new benchmarks for excellence in the contracting and maintenance industry. We aspire not only to deliver every project with a strong commitment to our clients' needs but also to consistently exceed their expectations by combining exceptional quality, precise execution, and timely delivery within the agreed schedules.

Leadership and Excellence

At Green Palace, we believe that true leadership in construction is built on integrity, continuous improvement, and a commitment to adopting the latest technologies, sustainable building practices, and innovative solutions that respect the environment and enhance the communities in which we operate.

Partnership and Collaboration

We value enduring partnerships with our clients, consultants, and stakeholders, based on mutual trust, transparency, and respect. By empowering our teams through professional development, we foster a culture of safety, and uphold the highest ethical standards, aiming to build not only successful projects but also a long-term legacy of reliability and excellence.

A Trusted Name in the Industry

Ultimately, our vision is to stand as a trusted name in the construction industry, recognized for delivering projects that combine innovation, quality, and value, while maintaining an unwavering dedication to customer satisfaction and national progress.

ENGINEERING

To achieve its goals, Green Palace has prepared and trained a select team of engineers with the highest level of technical expertise, enabling the company to drive growth, progress, and innovation while delivering unmatched engineering efficiency and quality.

Our mission

at Green Palace Contracting & Maintenance L.L.C. is to deliver high-quality construction and maintenance services that consistently exceed our clients' expectations. We are dedicated to completing every project on time and within budget, while upholding the highest standards of safety, precision, and sustainability. Through innovation, teamwork, and a commitment to continuous improvement, we aim to build lasting value, strengthen client trust, and contribute to the development of the UAE.
