SNAPSHOT

A Google profile for this shop exists and the reviews we could read are excellent — but there are only a handful of them, there is no working website, and public listings disagree on the suite, the hours, and even the business name. A second, similar listing at the same street address shows a much larger Google review count. That should be sorted out before it confuses customers.

Google Business Profile	23/30
Reviews	3/15
Website	0/25
Directory / listings	6/15
NAP consistency	8/15

Google Business Profile — 23 / 30

Yes — Auto repair shop. Google's public profile title is a long, informal phrase about brakes, starters, and more. Facebook is linked; no website is linked, and a business-written Google description was not found. Hours are listed, but sources disagree (see NAP). A Google photo count was not found; Yelp shows 1 photo (1 of 4). Category fits, with a small deduction for the informal profile title (3 of 4). Rating: 5.0 from 3 reviews (a Google-derived directory shows 4).

Website — 0 / 25

No working website found. The shop's obvious domain name does not resolve in public DNS. A directory row includes a "Visit Website" label, but no live destination was verified.

NAP consistency — 8 / 15

Consumer listings use a short shop name; Google's panel title is longer and informal; the second listing uses a slightly different wording. The street is consistent, but the suite letter is A on some pages and B on others, and Facebook omits the suite (2 of 5). The consumer phone is consistent, except a federal carrier snapshot that lists a different number (3 of 5). Hours also conflict: 9:00–5:00 vs 8:30–5:00 on this profile's listings, and 8:30–4:30 including Saturday on the second listing.

Reviews — 3 / 15

3–4 Google reviews at 5.0 on the profile that matches this name, from about one to three years ago, praising professional, prompt, and reliable work. No newer reviews were found on this profile. Owner replies: not found. A second public listing under a similar "automotive repair" name at the same street shows about 4.8 from 71 reviews and different hours, including Saturday. We could not confirm whether that is the same shop, a duplicate Google profile, or a different business.

Directory / listings — 6 / 15

Conyers Thrive: not found. Yelp: yes, unclaimed, with a suite letter, weekday hours, and 1 photo; the review module did not load (2 of 3). Facebook: yes (about 50+ followers, 5.0 from 3 ratings, matching street and phone). Apple Maps / Bing: not found. Other directories and a federal carrier snapshot also appear, and they do not all agree on the suite or phone.

TOP 3 FIXES

1. Reconcile the two look-alike listings at the same Conyers street so reviews, hours, and the name live on one accurate profile — or clearly distinguish them if they are not the same shop.
2. Lock one suite, one phone, and one schedule, then update Google, Yelp, Facebook, and the other directories the same day.
3. Put up a simple website with a call button, hours, and the correct suite, ask recent customers for a Google review, and add a Conyers Thrive listing.

A NOTE FROM CONYERS THRIVE
